Hurlid, Kathy has shared a OneDrive for Business file with you. To view it, click the link below.

MitRule revisions to facilitate assumption.docx

Good morning everyone,

Attached is a link to the sharepoint (preferred option for editing) as well as a draft INTERNAL to EPA proposal to amend the 404 mitigation rule to facilitate assumption.

The mitigation team lead by Palmer Hough, would like our comments by 10 am Tuesday (yes tomorrow). Thus, I am requesting you send comments to Brittany Bennett, or make comments on the sharepoint version, by COB today. Please note, folks from R5 and R2 have been helping with this document so it should be in pretty good shape.

I understand this is quick turn around and I appreciate any look you can give this at this time. It will not be our last opportunity to comment as this is an EPA proposal that has NOT been shared with USACE. So please, do not distribute this; do not share its contents with our counterparts at the USACE; but please do provide your comments.

Thanks again and other actions this week will be to prepare for our whiteboarding session on partial assumption.

Thanks and Happy Monday!

- Kathy

Subject: Proposed MitRule revisions to facilitate assumption

Mike/Kathy/Heidi

Can you take a quick look at these proposed revisions to the MitRule to facilitate assumption that our workgroup (includes reps from R5 and R2) has selected and let us know if you have any concerns?

The document is very short, less than a page.

We would greatly appreciate your input by 10 AM Tuesday if possible.

Feel free to share with anyone else on your team who is working on this topic.

Thanks, Palmer
